It has been said that in a marriage you only get eighty percent of what you need. When the other twenty percent is too tempting to turn down, do you decide to go with your family life, or do you take advantage of a once in a lifetime opportunity?

Simone, Te'Nae, and Shay are picture perfect wives and career women. Although they're able to juggle prestigious jobs, motherhood, and wifely duties with ease, they share a dark secret that, if exposed, could ruin everything they've worked hard to maintain. They will only get one chance to figure out if their families and marriages are worth more than the risks they're taking. They better hope they make the right decision, because once good wives go bad, there is no turning back, and the consequences can be major.
