Asian Development Bank

Tool Kit on Gender Equality Results and Indicators Asian Development Bank

This tool kit was designed to help development practitioners incorporate gender perspectives into development initiatives, and to monitor and evaluate gender equality results. It was written with development policy makers, planners, implementers, and evaluators in mind. The tool kit provides a menu of gender equality outcomes, results, and indicators across different sectors that can be adapted to suit different contexts. It is intended to be read selectively based on the sector and nature of the program or project although it is not expected that every indicator will be relevant to all programs and projects.
