Scott Cunningham

“A treasure trove of practical magic for both novices and more experienced practitioners . . . beautifully crafted spells that invoke the alchemy of possibility.”?PanGaia

*A leaf from an oak tree . . . a wildflower . . . water from a sparkling stream . . . dirt from a cool dark cave?these are the age-old tools of natural magic. Born of the earth, possessing inherent power, they await only our touch and intention to bring their magical qualities to life.*

The four elements are powerful magical tools. Using their energies, we can transform ourselves, our lives, and our world. This much-loved, classic guide offers more than seventy-five spells, rites, and simple rituals you can perform using the marvelous powers of the natural world.

Scott Cunningham was a greatly respected teacher and one of the most influential members of the modern Craft movement. A practitioner of elemental magic for twenty years, he wrote more than fifty books, including the seminal *Wicca: A Guide for the Solitary Practitioner*.
