Filipino Americans: Transformation and Identity

Filipino Americans: Transformation and Identity

When Asian Americans are discussed in the media the reference is often to people of Chinese or Japanese descent. However, the largest Asian American ethnic group is Filipino, a group of which little is known or written despite its long-standing history with the United States.

This interdisciplinary analysis rectifies this dearth of information by addressing ethnic identity, the impact of different colonizations on ethnic identity, personal and family relationships, mental health, race, and racism. In addition, the sociopolitical context is examined in each chapter, making the volume useful as a foundational tool for hypothesis generation, empirical research, policy analysis and planning, and literature review.
