Complicaciones en la cirugía del cristalino: Monografías SECOIR (Spanish Edition)

Complicaciones en la cirugía del cristalino: Monografías SECOIR (Spanish Edition)

La Sociedad Española de Cirugía Ocular Implanto-refractiva (SECOIR) publica esta nueva monografía anual con el objetivo de cubrir uno de los temas de más interés para los oftalmólogos de esta subespecialidad. La obra se presentará y distribuirán entre los socios en el próximo Congreso de la SECOIR, el cual se celebrará en mayo de 2016.

El contenido de esta monografía **se distribuirá a lo largo de 3 bloques** en los que se abordarán las complicaciones antes de la intervención, las que pudieran surgir durante la intervención y, finalmente, aquellas complicaciones postoperatorias que requieren también seguimiento.

A lo largo de un total de **53 capítulos**, los autores, todos ellos especialistas de renombre en el área de la cirugía del cristalino, hacen un **repaso de todas las posibles complicaciones que pueden surgir en un procedimiento quirúrgico del cristalino** y presentan diferentes maniobras o técnicas para abordarlas y solucionarles de manera positiva y favorable.

Con el objetivo de **explicar en profundidad la técnica quirúrgica o maniobra**, la obra contará con un **número importante de figuras e ilustraciones** que ayudarán al lector a entender mejor cada uno de los procesos. Igualmente, **la obra incluirá vídeos** a los que se podrá acceder a través de un **código QR**. Dichos vídeos presentará las principales maniobras quirúrgicas a tener en cuenta en los casos de las complicaciones más habituales.
