## Leadership in the Public Sector: Promises and Pitfalls

In view of the approaching age of austerity for the public sector, leadership is likely to continue to become a key theme. This edited volume brings together a host of material from the public sector to analyze the issue internationally.

Teelken, Dent & Ferlie lead a team of contributors in examining three key aspects of this increasingly important theme:

- the meaning of public sector leadership, and how this changes in different contexts
- the implications for leadership style given the growing role of the private sector
- the response to the leadership issue from professionals moving into senior management roles.

With contributions from respected academics such as Jean-Louis Denis, Mike Reed and Mirko Nordegraaf, this book will be an invaluable supplementary resource for those undertaking studies across public sector management and administration.
