Rethinking Entrepreneurship: Debating Research Orientations (Routledge Rethinking Entrepreneurship Research)

Rethinking Entrepreneurship: Debating Research Orientations (Routledge Rethinking Entrepreneurship Research)

Entrepreneurship is a growing field of research, attracting researchers from many different disciplines including economics, sociology, psychology, and management. The concept of entrepreneurship, and research in the field, is becoming institutionalized, increasingly oriented by influential trends, theories and methods, following the mainstream and being shaped accordingly.

The objective of this book is to move beyond mainstream approaches and assumptions which are dominating the field, and to raise questions about the nature and process of entrepreneurship research. Over twelve chapters, leading international thinkers in the field debate the impact and the consequences of institutionalization. Taking key research orientations including multidisciplinary, international entrepreneurship, social entrepreneurship, and ethics, it takes a critical and constructive and sometimes controversial posture and encourages a re-examination of the way we look at the social and economic phenomenon of entrepreneurship.

This book is vital reading for entrepreneurship researchers and educators, advanced students and policy-makers in Entrepreneurship, Economics, Sociology and Psychology.
