In this comparative history of Union & Confederate command & strategy, Jones shows us how the Civil War was actually conducted. Looking at decision-making at the highest levels, Jones argues that President Lincoln & Davis & most of their senior generals brought to the context of the Civil War a broad grasp of established mil. strategy & its historical applications, as well as the ability to make significant strategic innovations. He emphasizes the role of maneuvers as well as the significance of battles, & demonstrates that the war was a multi-faceted blend of traditional warfare with early influences of the industrial age.
