Applications of Seasonal Climate Forecasting in Agricultural and Natural Ecosystems (Atmospheric and Oceanographic Sciences Library) Graeme L. Hammer, Neville Nicholls, Christopher Mitchell

Climate variability has major impacts in many parts of the world, including Australia. Developments in understanding of the El Niño - Southern Oscillation Phenomenon have introduced some skill in seasonal to inter-annual climate forecasting. Can this skill be harnessed to advantage? Or do we just continue to observe these impacts? How does a decision-maker managing an agricultural or natural ecosystem modify decisions in response to a skillful, but imprecise, seasonal climate forecast? Using Australian experience as a basis, this book focuses on these questions in pursuing means to better manage climate risks. The state of the science in climate forecasting is reviewed before considering detailed examples of applications to:

1. farm scale agricultural decisions (such as management of cropping and grazing systems);
2. regional and national scale agricultural decisions (such as commodity trading and government policy);
and
3. natural systems (such as water resources, pests and diseases, and natural fauna).

Many of the examples highlight the participatory and inter-disciplinary approach required among decision-makers, resource systems scientists/analysts, and climate scientists to bring about the effective applications. The experiences discussed provide valuable insights beyond the geographical and disciplinary focus of this book. The book is ideally suited to professionals and postgraduate students in ecology, agricultural climatology, environmental planning, and climate science.

From reader reviews:

Yvonne Casey:

Why don't make it to become your habit? Right now, try to ready your time to do the important behave, like looking for your favorite publication and reading a reserve. Beside you can solve your trouble; you can add your knowledge by the book entitled Applications of Seasonal Climate Forecasting in Agricultural and Natural Ecosystems (Atmospheric and Oceanographic Sciences Library). Try to make book Applications of Seasonal Climate Forecasting in Agricultural and Natural Ecosystems (Atmospheric and Oceanographic Sciences Library) as your friend. It means that it can to get your friend when you really feel alone and beside associated with course make you smarter than before. Yeah, it is very fortunated for you. The book makes you more confidence because you can know almost everything by the book. So , let me make new experience as well as knowledge with this book.

Philip Raber:

This book untitled Applications of Seasonal Climate Forecasting in Agricultural and Natural Ecosystems (Atmospheric and Oceanographic Sciences Library) to be one of several books that best seller in this year, that's because when you read this reserve you can get a lot of benefit in it. You will easily to buy this book in the book store or you can order it by means of online. The publisher on this book sells the e-book too. It makes you more easily to read this book, because you can read this book in your Smart phone. So there is no reason to you to past this guide from your list.

Jaclyn Warner:

The book Applications of Seasonal Climate Forecasting in Agricultural and Natural Ecosystems (Atmospheric and Oceanographic Sciences Library) has a lot of information on it. So when you make sure to read this book you can get a lot of profit. The book was written by the very famous author. This articles author makes some research before write this book. This kind of book very easy to read you may get the point easily after perusing this book.

Myra Coronado:

People live in this new morning of lifestyle always try and and must have the extra time or they will get great deal of stress from both day to day life and work. So , when we ask do people have time, we will say absolutely indeed. People is human not really a huge robot. Then we inquire again, what kind of activity do you possess when the spare time coming to a person of course your answer can unlimited right. Then do you ever try this one, reading books. It can be your alternative with spending your spare time, typically the book you have read is actually Applications of Seasonal Climate Forecasting in Agricultural and Natural Ecosystems (Atmospheric and Oceanographic Sciences Library).
