Deleuze on Literature (Deleuze and the Arts) Ronald Bogue

This is the first comprehensive introduction to Deleuze's work on literature. It provides thorough treatments of Deleuze's early book on Proust and his seminal volume on Kafka and minor literature. Deleuze on Literature situates those studies and many other scattered writings within a general project that extends throughout Deleuze's career-that of conceiving of literature as a form of health and the writer as a cultural physician.
