## **El planeta tenerife (Escala en Tenerife) (Spanish Edition)** Olivia Stone

Olivia Stone viaja por las Islas seis meses a lo largo de 1883, a lomos de mula, burro, caballo o camello, en goleta, vapor, automóvil o <>. Durante las travesías mismas, y sobre todo antes de peñortar, anota lo más fielmente posible todo lo que la acontece, lo que ve, oye y comenta, sin olvidarse de incluir datos fehacientes que ha recopilado en la bibliografía existente en los fondos del Museo Británico, intentando en su descripción ser lo más ecuánime posible. Tenerife y sus satélites ocupa un lugar excepcional en la extensa literatura de viajes sobre el Archipiélago por su amenidad narrativa, por el encanto de la prosa de Stone, por la incesante curiosidad de su autora por todos los aspectos de la cultura y la realidad social de las Canarias a finales del siglo XIX, por la ingente cantidad de información y observación que acumula. En este volumen se han seleccionado los capítulos que Olivia Stone dedica a Tenerife en la magnífica traducción realizada por Juan S. Amador Bedford, profesor de la Universidad de La Laguna
