Foundations of Fuzzy Logic and Semantic Web Languages (Chapman & Hall/CRC Studies in Informatics Series)

Umberto Straccia

Foundations of Fuzzy Logic and Semantic Web Languages (Chapman & Hall/CRC Studies in Informatics Series) Umberto Straccia

Managing vagueness/fuzziness is starting to play an important role in Semantic Web research, with a large number of research efforts underway. **Foundations of Fuzzy Logic and Semantic Web Languages** provides a rigorous and succinct account of the mathematical methods and tools used for representing and reasoning with fuzzy information within Semantic Web languages. The book focuses on the three main streams of Semantic Web languages:

- Triple languages RDF and RDFS
- Conceptual languages OWL and OWL 2, and their profiles OWL EL, OWL QL, and OWL RL
- Rule-based languages, such as SWRL and RIF

Written by a prominent researcher in this area, the book is the first to combine coverage of fuzzy logic and Semantic Web languages. The first part of the book covers all the theoretical and logical aspects of classical (two-valued) Semantic Web languages. The second part explains how to generalize these languages to cope with fuzzy set theory and fuzzy logic.

With an extensive bibliography, this book provides in-depth insight into fuzzy Semantic Web languages for non-fuzzy set theory and fuzzy logic experts. It also helps researchers of non-Semantic Web languages get a better understanding of the theoretical fundamentals of Semantic Web languages.

From reader reviews:

Sharon Hardin:

Why don't make it to be your habit? Right now, try to ready your time to do the important behave, like looking for your favorite guide and reading a e-book. Beside you can solve your problem; you can add your knowledge by the reserve entitled Foundations of Fuzzy Logic and Semantic Web Languages (Chapman & Hall/CRC Studies in Informatics Series). Try to the actual book Foundations of Fuzzy Logic and Semantic Web Languages (Chapman & Hall/CRC Studies in Informatics Series) as your close friend. It means that it can to be your friend when you experience alone and beside regarding course make you smarter than in the past. Yeah, it is very fortunated for yourself. The book makes you much more confidence because you can know almost everything by the book. So , let me make new experience and also knowledge with this book.

Daniel Trimble:

Book is to be different for each grade. Book for children till adult are different content. We all know that that book is very important normally. The book Foundations of Fuzzy Logic and Semantic Web Languages (Chapman & Hall/CRC Studies in Informatics Series) has been making you to know about other understanding and of course you can take more information. It is very advantages for you. The reserve Foundations of Fuzzy Logic and Semantic Web Languages (Chapman & Hall/CRC Studies in Informatics Series) is not only giving you more new information but also to be your friend when you truly feel bored. You can spend your personal spend time to read your reserve. Try to make relationship with the book Foundations of Fuzzy Logic and Semantic Web Languages (Chapman & Hall/CRC Studies in Informatics Series). You never truly feel lose out for everything in case you read some books.

Neil Dussault:

Here thing why this particular Foundations of Fuzzy Logic and Semantic Web Languages (Chapman & Hall/CRC Studies in Informatics Series) are different and trustworthy to be yours. First of all studying a book is good nonetheless it depends in the content from it which is the content is as delightful as food or not. Foundations of Fuzzy Logic and Semantic Web Languages (Chapman & Hall/CRC Studies in Informatics Series) giving you information deeper and different ways, you can find any guide out there but there is no publication that similar with Foundations of Fuzzy Logic and Semantic Web Languages (Chapman & Hall/CRC Studies in Informatics Series). It gives you thrill looking at journey, its open up your personal eyes about the thing this happened in the world which is maybe can be happened around you. You can actually bring everywhere like in recreation area, café, or even in your means home by train. When you are having difficulties in bringing the imprinted book maybe the form of Foundations of Fuzzy Logic and Semantic Web Languages (Chapman & Hall/CRC Studies in Informatics Series) in e-book can be your substitute.

Danny Floyd:

Reading a e-book can be one of a lot of pastime that everyone in the world really likes. Do you like reading

book so. There are a lot of reasons why people enjoy it. First reading a reserve will give you a lot of new information. When you read a guide you will get new information due to the fact book is one of various ways to share the information or their idea. Second, reading through a book will make anyone more imaginative. When you reading through a book especially fictional book the author will bring that you imagine the story how the personas do it anything. Third, you may share your knowledge to others. When you read this Foundations of Fuzzy Logic and Semantic Web Languages (Chapman & Hall/CRC Studies in Informatics Series), you could tells your family, friends and also soon about yours reserve. Your knowledge can inspire different ones, make them reading a book.
