**Breakthrough Leadership in the Digital Age: Using Learning Science to Reboot Schooling** Frederick M. Hess, Bror V. (Valdemar) H. (Hang) Saxberg

***Reboot student learning the right way!***

Today's most successful school leaders are truly "learning engineers": creative thinkers who redefine their problems and design new ways to better serve kids' success. Technology has a critical role, but it's the creative reinvention of schools, systems, and classrooms that has to come first. In this powerful book, best-selling author and education policy expert Rick Hess and chief learning officer Bror Saxberg show you how to become your school's learning engineer. Using cutting-edge research about learning science as a framework, you'll:

- Identify specific learning problems that need solving
- Devise smarter ways to address them
- Implement *technology-enabled*, not *technology-driven*, solutions
