**Japan's Bubble, Deflation, and Long-term Stagnation (MIT Press)** Koichi Hamada, Anil K Kashyap, David E. Weinstein, Kazumasa Iwata

Japan's economic bubble burst in the early 1990s, and the country entered its famous "lost decade"--a period of stagnation and economic disruption that persisted until 2003. The current declines in global equity and real estate markets have eerie parallels to Japan's economic woes of the 1990s. If we are to avoid repeating Japan's experience on a global scale, we must understand what happened, why it happened, and the effectiveness (or ineffectiveness) of Japan's policy choices. In this volume, prominent economists--Japan specialists and others--bring state-of-the-art models and analytic tools to bear on these questions. The essays generate new facts and new findings about Japan's lost decade. As much of the research shows, the slowdown can be broken down into two phases: a typical recession, followed by a breakdown in the economy likely due to insufficient restructuring, which is not well described by conventional models. The contributors offer forceful arguments showing that Japan's experience, and the unconventional--sometimes unsuccessful--measures adopted by Japan's government and central bank, offer valuable lessons for our post-boom world. Contributors: Kenn Ariga, Robert Barsky, Diego Comin, Robert Dekle, Kyoji Fukao, Koichi Hamada, Takeo Hoshi, Ryo Kambayashi, Anil K Kashyap, Takao Kato, Satoshi Koibuchi, Philip R. Lane, John Muellbauer, Kiko Murata, Maurice Obstfeld, Ryosuke Okazawa, Joe Peek, Ulrike Schaede, David E. Weinstein

**From reader reviews:**

**Richard Cassidy:**

Book is definitely written, printed, or descriptive for everything. You can learn everything you want by a reserve. Book has a different type. As it is known to us that book is important matter to bring us around the world. Alongside that you can your reading talent was fluently. A book Japan's Bubble, Deflation, and Long-term Stagnation (MIT Press) will make you to become smarter. You can feel much more confidence if you can know about almost everything. But some of you think that will open or reading any book make you bored. It is not make you fun. Why they might be thought like that? Have you looking for best book or appropriate book with you?

**Carrie Hanks:**

What do you concerning book? It is not important together with you? Or just adding material when you require something to explain what the ones you have problem? How about your free time? Or are you busy man or woman? If you don't have spare time to accomplish others business, it is give you a sense of feeling bored faster. And you have extra time? What did you do? Every individual has many questions above. They have to answer that question since just their can do that will. It said that about reserve. Book is familiar on every person. Yes, it is appropriate. Because start from on kindergarten until university need this kind of Japan's Bubble, Deflation, and Long-term Stagnation (MIT Press) to read.

**Edward Stevenson:**

In this 21st one hundred year, people become competitive in each way. By being competitive right now, people have do something to make these people survives, being in the middle of typically the crowded place and notice through surrounding. One thing that occasionally many people have underestimated this for a while is reading. Yes, by reading a book your ability to survive raise then having chance to remain than other is high. For yourself who want to start reading any book, we give you this Japan's Bubble, Deflation, and Long-term Stagnation (MIT Press) book as starter and daily reading reserve. Why, because this book is more than just a book.

**Joyce Shryock:**

Nowadays reading books be than want or need but also turn into a life style. This reading behavior give you lot of advantages. Advantages you got of course the knowledge the actual information inside the book that will improve your knowledge and information. The data you get based on what kind of book you read, if you want send more knowledge just go with education and learning books but if you want truly feel happy read one along with theme for entertaining such as comic or novel. Often the Japan's Bubble, Deflation, and Long-term Stagnation (MIT Press) is kind of book which is giving the reader unstable experience.
