## **Determination of Seed Storage Potential of Natural and Accelerated Aged Wheat (*Triticum aestivum*)**

Davender Chauhan, D. P. Deswal

Research Paper from the year 2010 in the subject Biology - Botany, grade: None, , course: Doctorate in Seed Science and Technology, language: English, abstract: ABSTRACT: Seed of six varieties of wheat (*Triticum aestivum*) viz. C-306, PBW-502, WH-542, WH-711, WH-283 and RAJ-3765 were subjected to natural vis-à-vis accelerated ageing conditions and evaluated for relative storage potential of the seeds of respective varieties and ageing conditions. Seeds of all the varieties found 18 months of storability except the variety C-306 in term of minimum seed certification standards (MSCS) for germination percentage. Whereas variety RAJ-3765 was adjudged to have poor storability as it showed 18 months of seed storage potential under ambient conditions. After two years of storage all the wheat varieties loss their germination below minimum seed certification standards (MSCS). Maximum germination percentage retained by variety PBW-502(79.00), considered to have good storability as compared to others whereas minimum germination percentage retained by variety C-306(71.33) found to have poor storability. In case of accelerated aged seed lot maximum germination percentage retained by variety PBW-502(55.00) showed good storability whereas RAJ-3765(44.00) retained minimum germination percentage which showed poor storability among all varieties followed by C-306(47.00). Thus in both conditions natural and accelerated aged seed PBW-502 was adjudged good and RAJ-3765 was as poor storage genotypes. Secondly accelerated aged seed is having poor storability as compare to natural aged seed.

### **From reader reviews:**

#### **Christopher Olsen:**

The book Determination of Seed Storage Potential of Natural and Accelerated Aged Wheat (*Triticum aestivum*) give you a sense of feeling enjoy for your spare time. You need to use to make your capable a lot more increase. Book can being your best friend when you getting strain or having big problem together with your subject. If you can make reading a book Determination of Seed Storage Potential of Natural and Accelerated Aged Wheat (*Triticum aestivum*) to get your habit, you can get much more advantages, like add your own capable, increase your knowledge about a number of or all subjects. You are able to know everything if you like start and read a publication Determination of Seed Storage Potential of Natural and Accelerated Aged Wheat (*Triticum aestivum*). Kinds of book are several. It means that, science guide or encyclopedia or other individuals. So , how do you think about this guide?

#### **Paul Dubose:**

What do you regarding book? It is not important along with you? Or just adding material if you want something to explain what your own problem? How about your extra time? Or are you busy man? If you don't have spare time to perform others business, it is make you feel bored faster. And you have extra time? What did you do? Everyone has many questions above. They have to answer that question due to the fact just their can do that. It said that about book. Book is familiar in each person. Yes, it is suitable. Because start from on pre-school until university need this specific Determination of Seed Storage Potential of Natural and Accelerated Aged Wheat (*Triticum aestivum*) to read.

#### **Gary Roth:**

Are you kind of active person, only have 10 or maybe 15 minute in your day to upgrading your mind ability or thinking skill even analytical thinking? Then you are having problem with the book in comparison with can satisfy your short space of time to read it because this all time you only find book that need more time to be examine. Determination of Seed Storage Potential of Natural and Accelerated Aged Wheat (*Triticum aestivum*) can be your answer as it can be read by you actually who have those short extra time problems.

#### **Lorna Dews:**

What is your hobby? Have you heard in which question when you got scholars? We believe that that query was given by teacher to their students. Many kinds of hobby, Every person has different hobby. And you know that little person like reading or as studying become their hobby. You have to know that reading is very important in addition to book as to be the matter. Book is important thing to add you knowledge, except your teacher or lecturer. You find good news or update about something by book. Numerous books that can you decide to try be your object. One of them is Determination of Seed Storage Potential of Natural and Accelerated Aged Wheat (*Triticum aestivum*).
