**Energy and Emissions Markets: Collision or Convergence? (Wiley Finance)** Tom James, Peter C. Fusaro  
Written by best selling author Peter C. Fusaro and renowned energy market expert and commentator Tom James, this book demonstrates that the forces of energy and environmental issues are linked more than ever before. The beginning of European emissions trading in 2005 and the implementation of the Kyoto protocol have accelerated efforts already underway in the US to use market forces to remediate environmental issues. Topics such as emissions trading, renewable energy trading, the fourth dimension in energy trading, and new outcomes on green project finance will be analyzed in this book.
