Certified Dietary Manager (CDM) & Certified Food Protection Professional (CFPP) Self-Practice Review Questions: 2015 Edition (with 80+ questions) ExamREVIEW

A Certified Dietary Manager (CDM) / Certified Food Protection Professional (CFPP) demonstrates competency in the area of food protection and sanitation. The certification exam is not a nutrition exam nor a food tech exam. Rather, it is a highly comprehensive exam covering both the technical side and the business management side of the field of food service management. This book focuses on nutrition and food processing/storage. We create these self-practice test questions referencing the concepts and principles currently valid in the exam. Each question comes with an answer and a short explanation which aids you in seeking further study information. For purpose of exam readiness drilling, this product includes questions that have varying numbers of choices. Some have 2 while some have 5 or 6. We want to make sure these questions are tough enough to really test your readiness and draw your focus to the weak areas. Think of these as challenges presented to you so to assess your comprehension of the subject matters. The goal is to reinforce learning, to validate successful transference of knowledge and to identify areas of weakness that require remediation. The questions are NOT designed to “simulate” actual exam questions. “realistic” or actual questions that are for cheating purpose are not available in any of our products.
