**Krebs - eine Umweltkrankheit?: Risiko minimieren - Therapie optimieren (German Edition)** Klaus-Dietrich Runow

Fast zwei Drittel aller Krebserkrankungen gehen auf Umwelteinflüsse zurück. Klaus-Dietrich Runow zeigt, welche Faktoren das Krebsrisiko erhöhen und wie mit einer individuellen Nährstoff- und Entgiftungstherapie, einer anderen Lebensführung und einer Ernährungsumstellung die klassische Krebsbehandlung sinnvoll und wirksam begleitet werden kann, ohne dass es zu Wirkungsbeeinträchtigungen kommt. Dieses Buch baut eine Brücke zwischen der üblichen Krebstherapie und komplementären Maßnahmen. Es hilft dabei, die eigenen problematischen Umweltfaktoren besser einzuschätzen, und es erklärt, was jeder selbst tun kann, um das eigene Krebsrisiko zu minimieren.
