Sports Coaching Research: Context, Consequences, and Consciousness (Routledge Research in Sport, Culture and Society) Anthony Bush, Michael Silk, David Andrews, Hugh Lauder

This book raises critical questions about the explanatory framework guiding sports coaching research and presents a new conceptualization for research in the field. Through mapping and contextualizing sports coaching research within a corporatized higher education, the dominant or legitimate forms of sports coaching knowledge are problematized and a new vision of the field, which is socially and culturally responsive, communitarian and justice-oriented emerges.
