Steampunk III: Steampunk Revolution (The Steampunk Anthologies)

Steampunk III: Steampunk Revolution (The Steampunk Anthologies)

Playfully mashing up the romantic elegance of the Victorian era with whimsically modernized technology, this entertaining and edgy new anthology is the third installment in a bestselling steampunk series. Featuring a renegade collective of writers and artists—from beloved legends to rising talents—the steam-driven past is rebooted and powered by originality, wit, and adventure. Lev Grossman offers a different take on the Six Million Dollar Man who possesses appendages and workings from recycled metal parts, yet remains fully human, resilient, and determined. Catherynne M. Valente explores a new form of parenting within the merging of man and machine while Cherie Priest presents a new, unsettling mode of transportation. Bruce Sterling introduces steampunk's younger cousin, salvage-punk, while speculating on how cities will be built in the future using preexisting materials and Jeff VanderMeer takes an antisteampunk perspective as a creator must turn his back on an utterly destructive creation. Going beyond the simple realms of corsets and goggles, this engaging collection takes readers on a wild ride through Victoriana and beyond.
