Control Performance Management in Industrial Automation provides a coherent and self-contained treatment of a group of methods and applications of burgeoning importance to the detection and solution of problems with control loops that are vital in maintaining product quality, operational safety, and efficiency of material and energy consumption in the process industries. The monograph deals with all aspects of control performance management (CPM), from controller assessment (minimum-variance-control-based and advanced methods), to detection and diagnosis of control loop problems (process non-linearities, oscillations, actuator faults), to the improvement of control performance (maintenance, re-design of loop components, automatic controller re-tuning). It provides a contribution towards the development and application of completely self-contained and automatic methodologies in the field. Moreover, within this work, many CPM tools have been developed that goes far beyond available CPM packages. Control Performance Management in Industrial Automation: · presents a comprehensive review of control performance assessment methods; · develops methods and procedures for the detection and diagnosis of the root-causes of poor performance in complex control loops; · covers important issues that arise when applying these assessment and diagnosis methods; · recommends new approaches and techniques for the optimization of control loop performance based on the results of the control performance stage; and · offers illustrative examples and industrial case studies drawn from – chemicals, building, mining, pulp and paper, mineral and metal processing industries. This book will be of interest to academic and industrial staff working on control systems design, maintenance or optimisation in all process industries.

From reader reviews:

Marie Williams:

The event that you get from Control Performance Management in Industrial Automation (Advances in Industrial Control) will be the more deep you rooting the information that hide inside the words the more you get serious about reading it. It does not mean that this book is hard to understand but Control Performance Management in Industrial Automation (Advances in Industrial Control) giving you thrill feeling of reading. The copy writer conveys their point in certain way that can be understood by simply anyone who read that because the author of this guide is well-known enough. This kind of book also makes your own vocabulary increase well. That makes it easy to understand then can go together with you, both in printed or e-book style are available. We advise you for having this particular Control Performance Management in Industrial Automation (Advances in Industrial Control) instantly.

Evelyn Nielson:

Your reading sixth sense will not betray a person, why because this Control Performance Management in Industrial Automation (Advances in Industrial Control) publication written by well-known writer whose to say well how to make book that could be understand by anyone who have read the book. Written within good manner for you, leaking every ideas and writing skill only for eliminate your personal hunger then you still doubt Control Performance Management in Industrial Automation (Advances in Industrial Control) as good book not simply by the cover but also by content. This is one reserve that can break don't judge book by its cover, so do you still needing an additional sixth sense to pick this particular!?! Oh come on your reading sixth sense already told you so why you have to listening to yet another sixth sense.

Robert Lofton:

In this era which is the greater person or who has ability to do something more are more special than other. Do you want to become considered one of it? It is just simple way to have that. What you have to do is just spending your time very little but quite enough to get a look at some books. On the list of books in the top collection in your reading list is actually Control Performance Management in Industrial Automation (Advances in Industrial Control). This book that is qualified as The Hungry Mountains can get you closer in becoming precious person. By looking upwards and review this publication you can get many advantages.

Karen Strange:

E-book is one of source of information. We can add our know-how from it. Not only for students but also native or citizen want book to know the upgrade information of year to be able to year. As we know those publications have many advantages. Beside we add our knowledge, may also bring us to around the world. By the book Control Performance Management in Industrial Automation (Advances in Industrial Control) we can get more advantage. Don't you to definitely be creative people? For being creative person must love to read a book. Just choose the best book that ideal with your aim. Don't always be doubt to change your life

with that book Control Performance Management in Industrial Automation (Advances in Industrial Control).
You can more desirable than now.
