Preparing for the Classroom: What Teachers Really Think about Teacher Education

Kevin O. Mason

Preparing for the Classroom: What Teachers Really Think about Teacher Education Kevin O. Mason *Teacher Preparation* explores and examines current topics and issues in teacher education through the lens of eight practicing teachers. Their voices add a new perspective on the effectiveness and practicality of current trends and reforms in teacher education. Their insights may help to better prepare the next generation of teachers for success and longevity in the classroom. While most teachers rate their own experience as positive, many are not satisfied with the effectiveness of current pre-service teacher education programs as a whole. In fact, less than half of the teachers surveyed by the author were mostly or very satisfied with current pre-service teacher education.

This book explains why so many teachers are unsatisfied. In their own words, the teachers explain the thoughts and reasoning behind the views expressed throughout the book. Although teachers offer both praises and critiques of teacher education, the overall message is one of collaboration and partnership.

This book which is qualified as *The Hungry Inclines* can get you closer in becoming precious person. By looking upward and review this publication you can get many advantages.

Oscar Barr:

As a college student exactly feel bored to reading. If their teacher questioned them to go to the library as well as to make summary for some book, they are complained. Just little students that has reading's heart and soul or real their interest. They just do what the instructor want, like asked to go to the library. They go to generally there but nothing reading seriously. Any students feel that examining is not important, boring as well as can't see colorful pictures on there. Yeah, it is for being complicated. Book is very important for you personally. As we know that on this period, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore , this *Preparing for the Classroom: What Teachers Really Think about Teacher Education* can make you feel more interested to read.
