## **We: Toward a Conscious Global Community** Stephano Sabetti

For conscious people around the world, the time has come for a radical shift in the way we live and the levels upon which we deal with our daily concerns. What we need now are deep solutions - spiritual answers to world problems. We know it's late; we hope it's not too late. Yet the problems we see in the world are not outside us. We are both the difficulties and the solutions. WE is an invitation to explore these solutions to today's issues - to seek harmony where there is strife, tolerance where there is narrow-mindedness and generosity where there is selfishness. WE is a blueprint for how to step onto that new path, starting now. When we cast off the illusions of the ego and our attachment to its expressions, the beginnings of what we call the global community of the conscious WE emerges. In other words, there is great cause for hope if we live the motto: "Where there's a heart, there's a way."
