This is the leading reference on the organization, preparation, and use of construction information and the only one to cover the construction process from planning and design to construction administration. It details the basic practices involved in project delivery systems, cost estimating, construction documents, and code compliance. This new edition expands that scope to include information on project conception and project representation. This material, combined with a full complement of documents, contracts, and forms, makes this the single most comprehensive practice reference in the construction industry.
